**Dear Mr.A.Kitshoff**

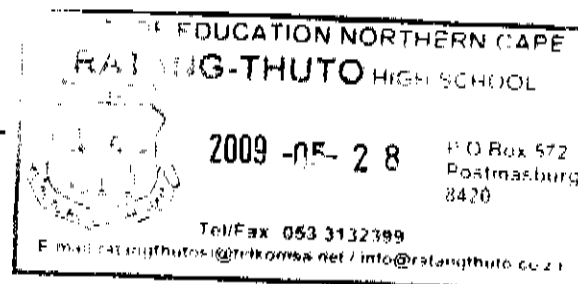

**RE: FEED BACK ARROUND TEAM BUILDING**

1. The moral among the Educators is positive in fact since last year after the workshop / Training we held. Every Educator and non-Cs knows his/her role and Fully comply with the tasks allocated to him her.
2. This exercise brought about a huge improvement in our results especially our matric results , we can proudly boast with a pass percentage of **72% for 2008** as compared to the **56.6% we obtained in 2007**. We intend to raise the bar to a much higher percentage this year (**2009**). The School still needs to focus much in the following **Gades: grade 9-11**.
3. Yes. This exercise has also made a change in our management system, we are much focused in getting systems in place and we have managed in a few, e.g the issue of punctuality, Absenteeism among Educators as well as learners.We have noticed a drop in the number of absenteeism.
4. As a School we strongly believe that companies such as RED&T should be part and parcel of any school's annual programme.
5. Resource empowerment Development and Training is a must have Training exercise to boat the spirit and moral of Leaders in institutions, and we wish that this could / will filter down to learners.

Hoping that you find the following in order.

Yours faithfully

Mr. L. C. Sehako  
( Principal)  
28.05.2009
